

Usar estrategias de suma para encontrar el resultado.

Respuestas

Ej) $35 + 158 = 193$
 $5 + 8 = 13$
 $30 + 50 = 80$
 $0 + 100 = 100$
193

1) $503 + 482 = 985$

3 +	2 =	5
0 +	80 =	80
500 +	400 =	900
		985

$$\begin{array}{r} 2) \quad 260 - 144 = \underline{116} \\ \quad 0 - 4 = \underline{-4} \\ \quad 60 - 40 = \underline{20} \\ \quad 200 - 100 = \underline{100} \\ \quad \quad \quad \underline{116} \end{array}$$

3) $706 - 478 = 228$

6 -	8 =	-2
0 -	70 =	-70
700 -	400 =	300
		228

4) $451 - 366 =$ 85

$1 - 6 =$ -5

$50 - 60 =$ -10

$400 - 300 =$ 100

85

5) $203 + 686 = 889$

3 +	6 =	9
0 +	80 =	80
200 +	600 =	800
		889

6) $34 + 883 = 917$

4 + 3 =	7
30 + 80 =	110
0 + 800 =	800
	917

7) $762 - 513 = 249$

$2 - 3 = -1$

$60 - 10 = 50$

$700 - 500 = 200$

249

8) $143 + 135 = 278$

3 +	5 =	8
40 +	30 =	70
100 +	100 =	200
		<u>278</u>

9) $851 - 700 = 151$

$1 - 0 = 1$

$50 - 0 = 50$

$800 - 700 = 100$

151

10) $935 - 564 = \underline{371}$

$5 - 4 = 1$

$30 - 60 = -30$

$900 - 500 = \underline{400}$

$\quad\quad\quad 371$

11) $943 - 614 = \underline{329}$

$3 - 4 = -1$

$40 - 10 = 30$

$900 - 600 = \underline{300}$

329

Ej. 193

1. 985

2. 116

3. 228

4. **85**

5. **889**

6. **917**

7. 249

8. **278**

9. **151**
